AWBCR Club Membership with Orivet

Orivet has offered all AWBCR members the opportunity to take advantage of a discounted health screening with the AWBCR Club Membership. If you wish to access this discount, follow the steps below.

Go to [Breeder Register - DNA Test - Orivet](#) register as a breeder and when you set up your account you select the AWBCR as your club and entering your AWBCR Membership Number. Once approved the discount is automatically applied when you log in, so discounted price is seen as "AWBCR Member"

If you already have a breeders account with Orivet and want to add the AWBCR Club Membership, then go in and add/edit and select AWBCR as your club.

If you already are in a club and wish to change then just send George and email (george@orivet.com) stating, you wish to change and supply him with your AWBCR Membership Number.

PLEASE NOTE: *By entering your Australian Working Border Collie Registry Inc; (AWBCR) membership number, you consent to have all your animals' DNA information made available to a secure DNA database as set by your association's Terms & Conditions. This database will contain all AWBCR members' genetic information and be accessible to club officials. Entering your membership number gives you access to the association special pricing.*

If you have any questions or are needing your AWBCR membership number, then please call or email me on 0400 742 492 or awbcrtreasurer@gmail.com

Kind Regards,

Peta Clitchison

AWBCR Treasurer
